Weecheeee! Acrophobic, huh?

Just wait till I explain.

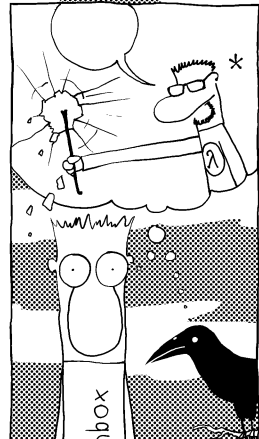

... my brand-new theory on the next

**MEGA-MERGER**

IT-business will...

Hm... suffer?

When they bought Sun, people thought this was the end... No du-uh! It's just a beginning! I bet they're already stalking their next prey. Like...

Like who?

Why, just look who's now in deeeep trouble with their plastic airplane...

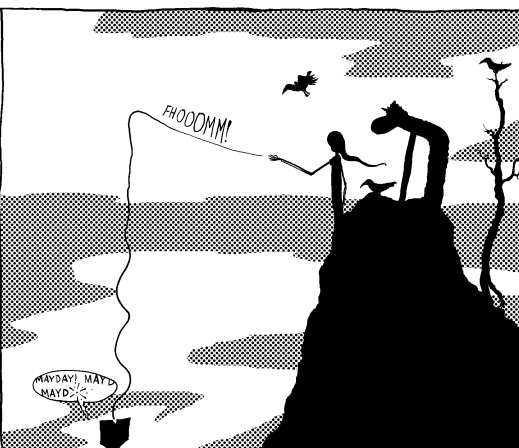

\shudder! OMG!

"Joining the expertise of two major players, we proudly present... the groundbreaking...

**ORA-600!**

Built of composites, this high-tech flagship is now powered by a pair of state-of-the-art database engines! Hmm... and dont worry, we've also installed one more backup server in the cargo compartment... Y'know.. just in case..."

Well then. Are you ready for 11g?

Actually, this looked like 100g to me. Plus, they'll \emph{never} name a plane after an error message.

overfull hbox

Hmm... I wonder... Would "Comet 11g" do then?

\*yeah fine, Gordon Freeman belongs to the folks at Valve Co, and all your base are belong to us, but this wanted out anyway
